

Fountain Valley, CA - April 28, 2007 – TypeLabs is pleased to announce a new professional webinar series for personality type practitioners.

"We are excited about our new partnership with Roger Pearman and Qualifying.org," said TypeLabs President, Kris Kiler. "They are a training partner that allows us to offer access to important and relevant information to professional users of personality type from anywhere in the world."

With over twenty-five years of work with the MBTI, FIRO-B and Strong Interest Inventory instruments, Qualifying.org is uniquely qualified to teach professional practitioners, ways to link the MBTI instrument, and other personality type assessments, with other leading development models.

Participants can register for the webinar at: <http://www.typelabs.com/webinars/>

The webinar presenter, Roger Pearman, is senior author of *I'm Not Crazy, I'm Just Not You*, author of *Hardwired Leadership, Enhancing Leadership Effectiveness, Leadership Advantage, Introduction to Type and Emotional Intelligence, Type 360™*, an award-winning multi-rater instrument, and is co-author of *You: Being More Effective in Your MBTI® Type* (May 2005, with Mike Lombardo and Bob Eichinger). Roger has been recognized for his research with both the Isabel Briggs Myers' Research Award (1997) and McCaulley Contribution Award (1999), and is a past president of the Association for Psychological Type.

"Most professional users--coaches, trainers, and consultants--are looking to find ways to capitalize and expand on their work with personality type and have no idea the links they can make with other assessments," says Roger Pearman, President of Qualifying.org. "But this webinar series offers the answers about those links and how to effectively utilize them in their area of practice."

Each Webinar is affordably priced at only \$29 per attendee, \$149 if you register by May 5, 2009.
